INTRODUCTION

This is a fantastic opportunity to be a part of something very special. Raith Rovers FC are committed to developing our own young players and you can help support them in the early stages of their footballing journey. These players will follow in the footsteps of the likes of Ross Callachan, Lewis Vaughan and Ross Matthews.

This season has already seen a number of last year's title winning Development Squad side make up the first team bench and also appear in manager Barry Smith's starting XI on a number of occasions. It is our belief that some of these exciting prospects will be the next generation of first team players that you will see regularly gracing Stark's Park in the not too distant future.

"The club has taken bold steps by putting in place a pathway for players aged between 16 and 20 years old. Our commitment is to find, coach and develop promising youngsters in this age group to be the next Raith Rovers players to wear the club's jersey with pride. It's a pleasure to be working with these young men on a daily basis and I'm excited to think we're at the beginning of something very promising for the future of the Rovers." - Craig Easton, Development Squad Manager

By backing Raith Rovers' vision to develop our own talent through having a structured pathway in place - one which gives real opportunities to young players - you'll not only be part of the future of the Rovers, but also a part of these players' first steps into the world of professional football.

Becoming a Development Squad sponsor means you are contributing first-hand to the future of our club - your club.

Thank you.
